19.00 Award ceremony

KL MälK

Individual ranking: All competitors will be included in individual ranking. Results of all 4 disciplines will be summed to one total result. According to this total sum ranking will be done. In case of equal results, tie breaking will be done by highest number of inner tens.

Pistol team ranking: Each team must consist of 3 shooters. Team members can be from different clubs. In that case team name will contain both club names. Name of the club whose shooters form majority in a team, will be written first. If this team should win a cup, then the cup will belong to the club whose shooters form majority in the team. Ranking of teams will be done according to total score: from 1 shooter results of all 4 disciplines will be included, other 2 shooters choose 2 disciplines each which results will be included in team's total score (team score consists of 8 results altogether). The choice must be done half an hour before start of the first discipline. Although not included in team score, all shooters will participate in all 4 disciplines.

Rifle team ranking: The same rules apply to rifle as to the pistol teams. Only difference is in total team score which consists of 4 scores (two prone and two 3-positions): both scores from first shooter and the 2 other shooters must choose what event they want to be included in the team score. There must be in team at least one man and one women

Running target team ranking:

Team has include 3 members. To have valid team results all members have to participate in all exercises. Total result will be counted as following – one member both exercise results and one result from two other members so, that both exercises have totally two results. Those results that will be included in team result has to be approved before shooting. Team can include shooters from up to 2 shooting clubs.

Running target individual ranking:

For individual ranking results of both exercises will be summarised.

Results: All results will be visible in online (web) database together with ranking.

KL MäLK

Awarding: 3 best competitors in individual ranking will be awarded with medals. 3 best teams will be awarded with cups and winning team also with a traveling trophy.

Participation fees: 40 EUR per person. The fee contains a lunch between the disciplines.
